The bride is the oldest daughter of Mr. and Mrs. W. H. Hill and is quite popular with a host of friends. The groom is a well known young farmer.

In the time of the Napoleonic wars Helgoland was used as a drill ground for British soldiers.

#### FOUR HUNDRED WERE PRESENT

Oratory, Music and Festivities At The Howell School Saturday Night.

A kind of jubilee entertainment was held at the new Howell School last Saturday night. A general musical program was rendered by the Hopkinsville quartette, assisted by Misses Griffith, Haynes, Coleman and Mr. Gerard. Delightful readings were rendered by Miss Coleman and Mrs. Thos. Steger.

Judge Walter Knight delivered an excellent address on "Improved Rural Conditions." He praised highly the citizens of the Educational Division No. 6, who erected such a magnificent school house at Howell.

Supt. Foster in his address outlined the purpose of the school. At the close of his speech he explained the financial state of affairs and raised by popular subscription something near \$500 to help defray the expenses of the building.

Mr. W. W. Radford presided over the meeting in his usual happy manner. The ladies of the community served refreshments to the entire crowd after the entertainment was over. Something near four hundred people were present and all report a good time.

#### Where War Is Unknown.

(New York Times.)

There is one place in the world which has probably not yet heard of the war. This is the British Island of Tristan da Cunha, in the South Atlantic. The secretary to the British Postmaster General recently stating that the island has not received a mail since the outbreak of hostilities. The island is dependent on chance communications from the Cape of Good hope, 1,500 miles away. The inhabitants number about eighty, and are mainly descendants of shipwrecked sailors. They are of mixed origin—English, Scotch, Irish, American, Dutch, Italian, Asiatic and negroes.

#### RECEPTION

To The Public at McLean College School This Morning.

Contrary to reports, the School Board has not authorized a return to the old plan of a full day's teaching, instead of one session from 9 a. m. to 1:30 p. m.

A formal reception to the public will be given this morning at 8:30 o'clock at the McLean College school. There will be music and more or less oratory.

#### Nancy Hanks.

It is not often that the death of a horse is recorded in the public press, but two weeks ago this notice appeared in some of our papers:

"Died: In Fayette county, Kentucky, Aug. 15, 1915, Nancy Hanks, aged 29 years."

Only a race horse, but so famous that her demise is a matter of interest to the country at large. Time was when Nancy Hanks was the idol of the turf, the most talked of and written up horse in the world. She held the trotting record against all competitors, a satin-coated, slim-ankled creature that caught the spirit of the race as if it were an inspiration. Many a race track habitué remembers her with a feeling that is close to affection. The years of her triumphs are long past, she has spent a green old age on the blue grass pastures of Kentucky, and now she has gone to her death full of honors.

In the old days when she was young horse, racing was a "gentleman's sport," and Nancy was queen of the track.—Com. Appeal.

#### Five Lives Lost.

San Francisco, Sept. 4.—Five little girls lost their lives at an early hour Saturday morning in a fire which destroyed the St. Francis girls' dormitory, a five-story frame structure at Buena Vista and Central avenues, imperiled the lives of fifty-one other children who escaped unhurt, through the heroism of attending sisters of St. Joseph.

#### STATE HIGHWAY

Contract To Be Let For 6 Miles To-day.

The Fiscal Court will meet to-day and one question of interest to be passed upon is letting the contract for the state highway to be built in Christian county, a stretch of six miles on the Princeton road, for the construction of which state aid will be given. The road will be built according to specifications submitted by a state engineer.

#### A Free Gate at Kansas Fair.

Kansas is trying an experiment this year, according to dispatches in which Des Moines will be specially interested. No admission will be charged to the State Fair which will be held at Topeka. The concessions and entry fees will be expected to make up the deficiency. It is figured that the attendance will be so much greater and the amount of money expended within the grounds so much larger that in the end everybody will be happy and the fair out of debt.

It has often been suggested that the ideal system for the Iowa State Fair would be to have free gates, thus putting the wonderful exposition within the reach of all. If the plan is successful in Kansas, why should not Iowa follow suit?—Des Moines Capital.

#### Five in Eighteen Months.

Mrs. Anna Bellamo, of Nostrand Avenue, Brooklyn, has presented her husband with five babies in a year and a half. He is very proud.

Twins, boy and girl, were born 15 months ago, and triplets, two boys and a girl, on August 8. All are thriving and so is the mother. This is her second essay at twins, a pair having been born eight years ago, making seven children in three births. All are living.—New York American.

E. W. Glass has let the contract for the erection of a business house on his lot near the corner of Fourth and main streets and the work of excavating is now in progress. The building will be, 35 by 60 feet, a two-story brick, with two store rooms below and offices above. The front will be of French plate glass and the building will have all modern conveniences.
